

# MODEL COUNTING COMPETITION 2022

Johannes K. Fichte (TU Wien)  
Markus Hecher (TU Wien)

FLoC Olympic Games 2022,  
Technion, Haifa

# Idea of the Competition

*Deepen **relationship** between latest theoretical and practical development on the various **model counting problems** and their **practical applications***

- Gain visibility of model counting
  - Foster progress and new solving approaches and ideas
  - **3rd iteration**
- 
- Report of 2020 JEA / Report 2021 (on our list)

# Tracks

# Tracks

## 1) Model Counting

Input: Propositional formula  $F$  in CNF

Task: Output the number of satisfying assignments to  $F$

## 2) Weighted Model Counting

Input:  $F$  + weight for each literal in  $F$

Task: Output sum of weights of all models, where the weight of a model is the product of the weights of its literals.

## 3) Projected Model Counting

Input:  $F$  + set  $P$  of projection variables

Task: Output the projected model count of  $F$   
(number of satisfying assignment wrt. to variables in  $P$ )

## 4) Projected Weighted Model Counting

# Ranking

- A) Arbitrary Precision (0% relative error; DQF >0 wrong)
- B) Small Precision Loss (0.1% relative error; DQF >20 wrong)
- C) Approximate Solving (0.8 approx factor; DQF >20 wrong)
- ~~D) Heuristic (20% relative error ok)~~

# System

1. StarExec
2. 60min per instance
3. 32 GB main memory (RAM) per instance

# Procedure

# Evaluation Procedure

- Open call for benchmarks
- Evaluated submitted benchmark instances + known sets

We selected 200 instances and split them in public / private.

- 1) Public instances and public challenge  
Submission open for a few weeks.

- 2) **Private instances (100)**

After a final deadline, we evaluate solvers on StarExec

If we see errors, we give authors a few days to comment or fix.

We included results of a fixed version if provided.

# Submission Requirements

## Bottom Line

Almost no limits regarding requirements on the software,  
but we strongly encourage open source

# Participants

# Participants

Track	Groups
MC	11 (+1)
WMC	5 (-1)
PMC	4 (-1)
PWMC	2 (+2)

Knowledge Compilation (c2d, d4)	Component Caching (SharpSAT-TD, gpmc, bob, SharpSAT-td-Arjun)
Dynamic Programming (DPMC)	Approximate Counting (SharpSAT-td-Arjun+ApproxMC)

# Benchmark Submissions 2022

- Guillaume Escamocher; Barry O'Sullivan
- Ivor Spence
- Daniel Pehoushek
- Samuel Teuber; Alexander Weigl
- Piotr Jerzy Gorczyca
- Yong Lai
- Elisa Böhl; Sarah Alice Gaggl; Dominik Rusovac

**Thank you!**

*Instances -> Zenodo   Descriptions -> Report*

+ 2020+2021 Instances

# Instance Selection 2022

- Solved  $<1s$  by sharpSAT  $\Rightarrow$  Remove
- Max 10 Instances per Benchmark Set
- Choose randomly
- Max 40 instances that cannot be solved within 14.000s by existing solvers
- Weighted Model Counting
  - Select instances randomly (weighted and unweighted)
  - Generate weights randomly
    - On counting graph, if it can be generated
    - Random weights (at most 10 rounds), otherwise
- Cleanup (minor format issues from submissions)

# Results

# Track 1: MC / Ranking A

#	Submission	Authors	solved
1	<b>SharpSAT-td-Arjun</b>	Mate Soos Kuldeep S. Meel	<b>79</b>

# Conclusion

## Small Improvements

- 1) New Participants
- 2) More open source solvers / Solver quality improved
- 3) New Track / Better Ranking

# Challenges

- Hard meaningful instances for Weighted Model Counting  
Pls submit probabilistic reasoning instances?
- Multiple Rankings
- Cluster resources

# Thanks go to

- All the **participants of the 2022 competition!**
  - For their submissions and active participation and
  - Their incredible patience
- All **contributors of instances!**
- Judge: **Mario Alviano** (University of Calabria) and  
Technical Advisor: **Daniel Le Berre** (CRIL Lens)
- **Aaron Stump** (StarExec)
- **ZIH (TU Dresden)** for providing cluster resources

# Organizers

Johannes K. Fichte

TU Dresden

Markus Hecher

TU Wien, U. Potsdam

Judge

Mario Alviano

# Outlook

# Edition 2023

- Same Tracks as 2022?
- Same Ranking as 2022?
- Virtual meeting to prepare the next iteration in Oct 2022?

Call for benchmarks in September.

Hope we see you in 2023.

***mccompetition.org***
